

Use of Physical Intervention and Restraint

To maintain a safe learning environment, district employees may, within the scope of their employment and consistent with state law, use physical intervention and restraint with students in accordance with this policy and accompanying regulation. Such actions shall not be considered child abuse or corporal punishment if performed in good faith and in compliance with this policy and accompanying regulation.

Physical intervention

Corporal punishment shall not be administered to any student by any district employee or volunteer, in accordance with state law.

Within the scope of their employment, district employees may use reasonable and appropriate physical intervention with a student, that does not constitute restraint as defined by this policy, to accomplish the following:

1. To quell a disturbance threatening physical injury to the student or others.
2. To obtain possession of weapons or other dangerous objects upon or within the control of the student.
3. For the purpose of self-defense.
4. For the protection of persons against physical injury or to prevent the destruction of property which could lead to physical injury to the student or others.

Under no circumstances shall a student be physically held for more than one minute unless the provisions regarding restraint contained in this policy and accompanying regulation are followed.

Restraint

For purposes of this policy and accompanying regulation, restraint is defined as any method or device used to involuntarily limit a student's freedom of movement, including but not limited to bodily physical force and seclusion. If property damage may be involved, restraint may only be used when the destruction of property could possibly result in bodily harm to the individual or another person. Restraint shall not include the holding of a student for less than one minute by a district employee for the protection of the student or others and other actions excluded from the definition of restraint in state law.

If a student is physically restrained for a period of time longer than one minute, but less than five minutes, the student's parent(s) are required to be notified. The notice

must be given in writing on the same day the restraint occurs, and must include the date of restraint, student's name, and the number of times that day that the student was restrained.

If a student is physically restrained for a period of time longer than five minutes, the school administration shall verbally notify the parent or guardian as soon as possible, but not later than the end of the school day that the restraint was used. Additionally, the school administration shall mail, fax, or e-mail a written report of the incident, including all information required by law, to the parent or legal guardian of the student not more than five calendar days after the use of the restraint on the student.

District employees shall not use restraint as a form of discipline or to control or gain compliance from a student. District employees are also prohibited from restraining a student by use of a prone restraint, mechanical restraint or chemical restraint, as those terms are defined by applicable state law and this policy's accompanying regulation.

If a student is placed in a seclusion room, the student must be continually monitored. The seclusion room must have at least one window to monitor students when the door is closed. If it is not feasible to utilize a room with a window, monitoring by video camera must be possible. The seclusion room must be a safe space free from injurious items and must not be a space used by school staff for offices, storage, or custodial purposes.

Restraint shall only be administered by district employees trained in accordance with applicable State Board of Education rules.

Use of Mechanical or Prone Restraints

The prohibition on the use of mechanical or prone restraints in this policy and accompanying regulation shall not apply to:

1. Certified peace officers or armed security officers working in a school and who meet the legal requirements of C.R.S. 26-20-111 (3), however, no law enforcement officer or armed security official shall use handcuffs on any student unless the student poses an immediate danger to themselves or others or if handcuffs are solely used during a custodial arrest requiring transport.
2. When the student is openly displaying a deadly weapon, as defined in C.R.S. 18-1-901 (3)(e).
