

## **Parent and Family Engagement in Education**

The Board of Education believes that the education of each student is a responsibility shared by the school as well as parents and families. Engaging parents and families is essential to student achievement. The Board recognizes the need for a constructive partnership between the district, parents, and families that provides for two-way communication and fosters educational support for students, parents, and families. In this policy, the word “parent” means a child’s biological parent, adoptive parent, legal guardian, or other adult person recognized by the child’s school as the child’s primary caregiver.

In keeping with these beliefs, it is the district’s intention to cultivate and support active parent and family engagement and to set and realize goals for parent and family engagement in education.

To that end all district schools will:

1. Consult with and encourage parents and families to share in school and district planning and in the setting of objectives through participating in school and district accountability committees.
2. Help parents and families understand the educational process and their role in supporting student achievement through regular, meaningful communication.
3. Inform parents and families of school choices and learning opportunities within the district, including but not limited to, information on open enrollment, choice programs and charter school options.
4. Provide opportunities for parents and families to be informed about their student’s progress toward attaining proficiency on state and district academic standards through written materials and public meetings. Information shall explain how the student’s progress will be measured and how parents and families will be informed of such progress. This information will also be provided to the school and district accountability committees.
5. Provide appropriate avenues for parents and families to find support in their role.
6. Encourage formal organizations for parents and families at each school building as well as at the district level. The organizations will receive information concerning district and school activities and will have opportunities for input into district and school decisions as appropriate.
7. Encourage and welcome volunteers in the schools.
8. Create an inclusive culture honoring the lived experience of students, parents, and families in the school and district community.

9. Invest in building trusting relationships to strengthen the partnership between students, parents, and families and the school building and district regarding the education outcomes for children and youth.

The Board supports professional development opportunities for staff to enhance their understanding of effective parent engagement strategies.

The district will identify an employee of the district to act as the point of contact for parent engagement training and resources. The identified person will also serve as the liaison between the district, the district accountability committee (DAC), the Colorado State Advisory Council for Parent Involvement in Education (SACPIE), and the Colorado Department of Education (CDE) and will facilitate the district's efforts to increase parent involvement within the district. The school district must submit the name of the identified employee to CDE.

The Board also recognizes the special importance of parental involvement to the success of its Title I, Migrant Education Program (MEP), and Limited English Proficiency (LEP) programs and directs the superintendent to ensure that the district and schools jointly develop parent involvement policies that meet the requirements of federal law.

The district accountability committee (DAC) will conduct a periodic review of this policy. As part of its review, the DAC will seek input from school accountability committees and then provide any recommended policy revisions to the Board.
